

# A Toast to The Rembrandt Club of Pomona College & Claremont

*Given by Perdita Sheirich  
at the Club's 100th Birthday Luncheon in 2006*

To The Rembrandt Club's past — to those founders 100 years ago who thought to “foster art in all its branches and to promote the interests of the Art Department;”

To those who followed to guide the Club through all the changes over the years;

To all members in the present — and to those present here today — who continue to sustain the interests in art and the College and who continue to change with the times;

To wonderful friendships made;

And, to the future of the Club in the years to come — may the momentum to foster art in all its branches continue to be sustained.
